Portfolio Highlights Over the last 3 Years

> 25 new private investments	
>20 IPOs	
12 Trade sales	
Positive clinical data	
7 market approvals	
Upcoming catalysts in 2024	

Data as of 31 December 2023

Proven Track Record of more than 60 Trade Sales and IPOs in 10 Years

Data as of 31 December 2023

Investment Strategy

Innovation

- Investment focus on companies with innovative platforms and drug candidates

Private and Public

- Portfolio of private and small-cap public companies (generally market capitalisation below USD 2 bn)

Proof of Concept

- Investments typically first made in a venture round when company has product(s) in clinical development and has achieved “proof of concept”

Follow-on

- Subsequently, investment may be increased substantially in follow-on financings, provided the value-creation potential is intact

Active Participation

- Active participation with companies to develop towards trade sale or IPO

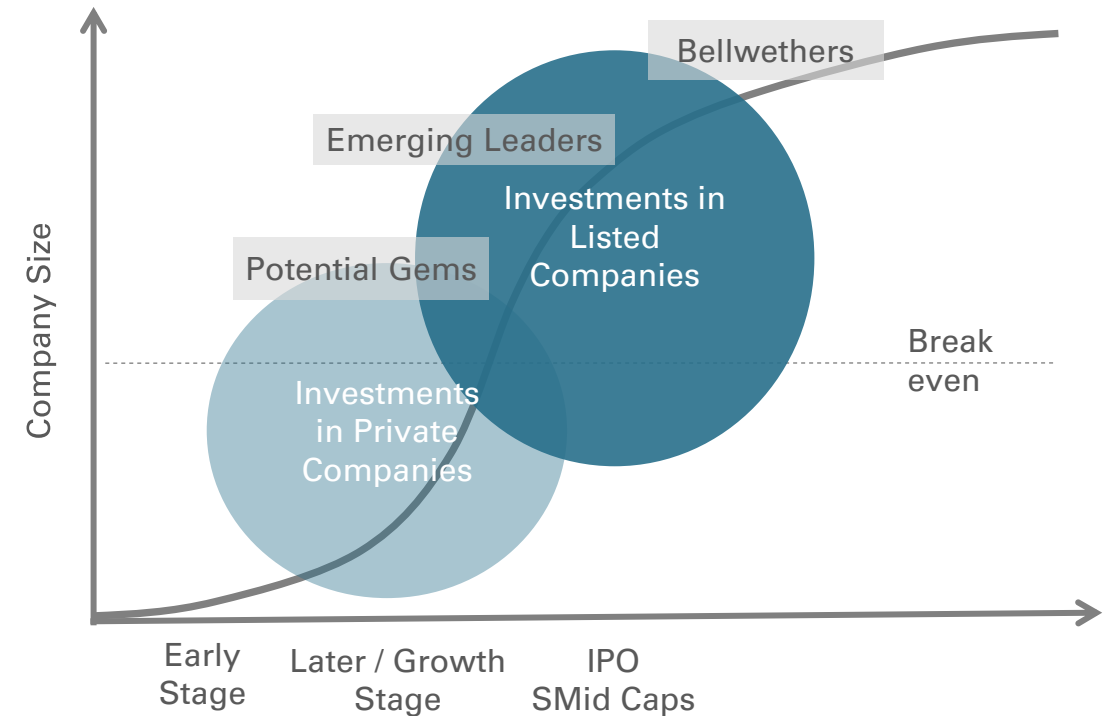

Flexibility

- Permanent capital structure provides flexibility to further increase investments at or after the IPO

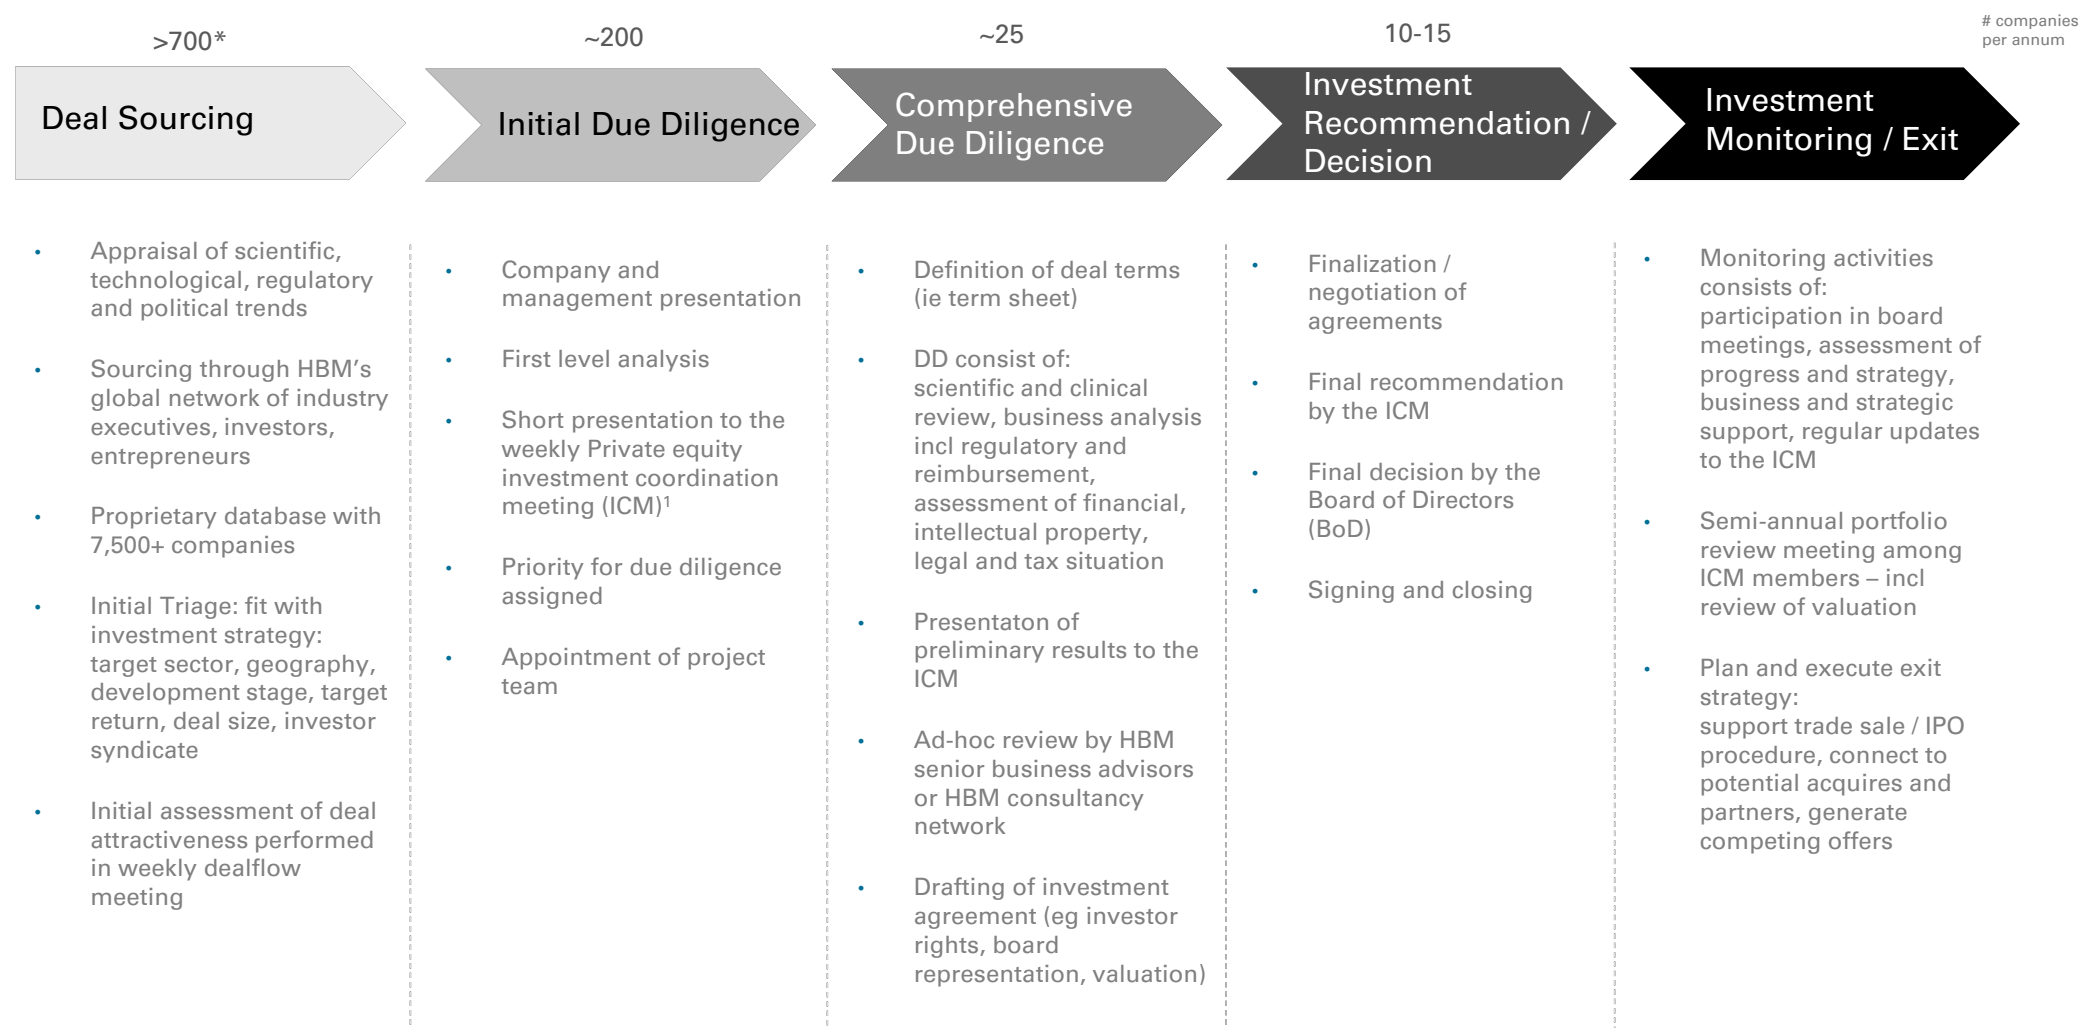

Investment Approach

Investment Approach

- Fundamental long with private and public healthcare investments
- Bottom-up selection of investments with solid long-term growth potential
- Diversified portfolio approach
- Sourcing of proprietary private deal flow
- Active lead/co-lead investor in private companies with board representation
- HBM takes an active role and assumes entrepreneurial responsibility together with the management team
- Maximum single position limit at time of investment up to 10% of NAV

Private Equity Investment Process

* Deal Flow: 45% USA/Canada, 40% Western Europe, 15% RoW; 60% Biotech, 30% Medtech & Diagnostics, 10% Other

¹ ICM: Regular meeting of all HBM investment professionals including CEO, CFO, Head Private Equity and Risk / Investment Compliance Officer.

Main function: Overall review and discussion of potential new investments and progress of existing investments. Consultative vote on new and follow-on investments.

Public Equity Investment Process

Due Diligence

- Scientific and clinical review: Survey of scientific literature and journals, study of clinical trials and regulatory paths
- Business analysis: Detailed financial modelling and projections for companies, comparison vs market consensus, comparable company analysis
- Assessment of stakeholders and their track record
- Explore patent situation
- Issue investment thesis and rationale

Portfolio & Risk Management

- Survey of general market environment
- Continuous re-evaluation of investment theses and price targets
- Dynamically modify position sizes according to latest assessments
- Strictly stick to portfolio guidelines
- Risk controls through active exposure management and strict position limits

Idea Generation

- Appraisal of scientific, technological, regulatory and political trends
- Universe of >1,500 healthcare companies (approx. 15% are covered by stock market analysts)
- Proprietary database with 750+ companies
- Regular attendance of industry, medical and scientific conferences
- Close relationship to industry, medical experts and C-level executives
- Priority ratings for due diligence assigned

Stock Selection & Portfolio Construction

- Determine exposure and position size
- Investment decision is made by the portfolio manager
- Initiate new position based on risk/reward considerations, investment thesis, time to value inflection point and fit in overall portfolio
- Scale position size according to conviction level
- Portfolio is continuously analysed to identify new investments that offer more attractive opportunities

Deal Sourcing of Private Equity Investments

Healthcare Sector

Attractive Growth Sector with Strong Fundamentals and Drivers

Biotech Outperformed the Market Over Short & Long Term

Source: Bloomberg, data as of 31 December 2023, in USD

- Healthcare sector's fundamentals remain intact and are supportive for further outperformance
- Sales from drugs and medical devices > \$1.4 trillion p.a. representing more than 25% of the healthcare industry's total revenues
- Biotech sector resilient to economic cycles with high profit margins, strong cash-flows and highest returns in healthcare
- > 90% of next-generation biotherapeutics (cell-, gene- and nucleotide-therapies) developed by emerging biopharma
- Sustainable market drivers such as ageing population, favorable regulatory environment, greater scientific understanding, and an increasingly affluent middle class
- Market positioned for further upside given attractive valuations, could be complemented by acceleration in M&A

Largest Private Equity Investments

154

Swixx BioPharma

- Full representation services for pharma/biotech in CEE (Central and Eastern Europe)
- Profitable company with net sales expected to exceed EUR 900m in 2023; targeting to reach low-double digit EBITDA margin
- Over 1'200 employees as of H1 2023

47

Neurelis

- Nasal Diazepam (Valtoco®) approved with orphan status in managing breakthrough epilepsy seizures
- USD 100+ net sales in the US, and market leader in the space
- Pipeline of other neurology pipeline assets (novel drugs and generic medicines)

47

Fangzhou (Jianke)

- China's leading B2C SmartCare service platform for chronic diseases management
 - Closed strategic cooperation with Santen, Menarini, Zelgen, Novartis, Pfizer and many other pharmaceutical companies
 - Achieved revenues of CNY 2.2 billion in 2022 (US\$ 300 million); Co. anticipates positive non-GAAP net income for H1 2023
- Data as of 31 December 2023, Bookvalue in CHF million

31

ConnectRN

- Tech-enabled platform providing online community and work opportunities to healthcare professionals
- Rapid uptake in the long-term care market with additional business lines in home health care and hospital staffing
- Collaboration with Amedisys (now United Health) is developing well and has been the base for home health market expansion

31

Upstream Bio

- Acquired UPB-101 from Astellas, a clinical-stage monoclonal antibody targeting TSLP Receptor. Clinically validated target in asthma
- The only mechanism of action that showed efficacy in low-Th2 asthma - follower of Amgen's market approved Tezspire®

21

NiKang Therapeutics

- Developing small molecules for oncology capitalizing on structure-based drug design. NKT2152 is a HIF2α inhibitor. Phase 1/2 dose escalation and expansion trials ongoing in advanced renal cell carcinoma (RCC) – possible expansion into other solid tumors
- Co. is working on leads against KRAS G12D (common genetic mutation in cancer)

Largest Public Equity Investments

232

Cathay Biotech

- Synthetic biology company: long-chain dicarboxylic acids / bio-based diamine 5 & bio-based polyamide / polyesteramide
- Profitable with revenues of CNY 2.4 billion (US\$350m) for 2022
- Significant collaboration (equity & supply contract) with CMG; contract worth up to several hundred-million-dollar revenue

58

Harmony Biosciences

- Narcolepsy (with and without cataplexy)
- Wakix™ (Pitolisant) approved in the US and in the EU for narcolepsy (with or without cataplexy)
- Unlike other wake-promoting agents, Wakix is not scheduled as a DEA controlled substance

30

Argenx

- Drugs for autoimmune diseases – lead drug market approved VYVGART for the treatment of myasthenia gravis (gMG) – with potential indication expansion
- Novel antibody-based therapies, combining the diversity of the llama immune system with antibody engineering

20

Insmed

- Marketed product ARIKAYCE used for the treatment of Mycobacterium avium complex lung disease as part of a combination antibacterial drug regimen
- Its clinical-stage pipeline includes brensocatic and treprostinil palmitil inhalation powder (TPIP). Phase III data for Brensocatic in non-cystic fibrosis bronchiectasis/NCFBE anticipated in Q2 2024

16

Mineralys Therapeutics

- Targeted approach for the treatment of uncontrolled and hypertension and chronic kidney disease
- MLS-101 is an Aldosterone synthase inhibitor that showed significant effect size in a proof of concept trial
- Pivotal clinical trials for hypertension will start in 2023 (readout 2024 & 2025); phase II - chronic kidney disease - starts in H2 23

13

Vicore

- Clinical-stage biotechnology company focussed on developing innovative medicines in severe diseases
- The company released new clinical data of C21 in idiopathic pulmonary fibrosis (IPF) patients. C21 could potentially be the first IPF drug that turns this deadly disease into a survivable one

M&As in the HBM Portfolio in 2023

ImmunoGen

- Acquired for \$10 billion by AbbVie
- The Immunogen-AbbVie deal was driven by the appeal of Immunogen's cancer therapy ELAHERE, which received accelerated FDA approval for the therapy of advanced ovarian cancer in November 2022, and looks set to obtain full approval in 2024.
- ELAHERE belongs to a new class of drugs called antibody-drug conjugates (ADCs). ADCs are fast-growing, innovative biopharmaceutical products that specifically target cancer cells, while protecting the healthy cells and thus improving treatment effectiveness.
- ELAHERE is a first-in-class ADC targeting folate receptor alpha (FRA), a cell-surface protein over-expressed in a number of epithelial tumors, including ovarian, endometrial, and non-small-cell lung cancers.

M&As in the HBM Portfolio in 2023

Prometheus

- Acquired for nearly \$11 billion by Merck & Co
- Therapeutic products for the treatment of immune-mediated diseases, inflammatory bowel disease (colitis ulcerosa, morbus crohn)
- Lead product candidate, PRA023, is a humanized IgG1 monoclonal antibody (mAb) that has been shown to block the tumor necrosis factor (TNF)

Chinook

- Acquired for over \$3 billion by Novartis
- Precision medicines for kidney diseases
- Lead product candidate, atrasentan, is a potent and selective endothelin A (ET_A) receptor antagonist
- Atrasentan is in phase III trials for the treatment of IgA nephropathy (IgAN) and proteinuric glomerular diseases

Case Study Cathay Biotech

- Market cap: CNY 32.1 billion (CHF 3.8 billion), listed on Shanghai STAR Market since Aug 2020 (member of STAR 50 Index).
- Invested since May 2006: CNY 274 million (CHF 36 million) 7.1% ownership.
- Book value: CNY 2.0 billion (CHF 232 million) for 6.1% remaining ownership.

Cathay Revenues and Net Profit
(CNY million)

Source: Bloomberg and Company announcements; Financial figures as of 28 October 2022, all others as of 31 December 2023

Company Profile

- Cathay was founded in 2000 and engages in the research, development, production and sales of new bio-based materials based on synthetic biology and other technologies utilising bio-manufacturing technology

Investment Rationale

- Cathay is the leading supplier of biological long-chain dicarboxylic acids ("LCDA"), fine chemical intermediates, which are used for nylon, polyester, adhesives and organic solvents
- Cathay's proprietary technology allows production of pentamethylene diamine (PDA) from sustainable resources and provides downstream bio-based polyamide products, such as Cathay's high-performance textile material TERRY[®] for broad applications in clothing, carpets, industrial yarns and other textile fields. Ecopent[®] is also a polyamide and can be used in the automotive and rail transit sectors, in electronics and electricals, in consumer and industrial goods, cable ties, film and others

Achievements during Investment Period

- Company achieved revenue 5Y CAGR 2016-21 of 20% with a net profit margin of ~25%. Company reported subdued results for 2022 amid COVID-induced headwinds and rising raw material costs. Revenue and net income reached CNY 2441 million (+11.1% vs 2021) and CNY 553 million (-8.3% vs 2021).
- Lately a significant strategic collaboration with China Merchants Group (CMG), worth up to several hundred-million-dollar revenue, for Cathay's bio-based polyamide business, had been announced.
- Profit taking in Cathay Biotech with one seventh of the position has so far led to initial gains and cash.

Case Study

Swixx BioPharma

- HBM was the first institutional investor in the company along founders and management.
- Net sales expected to exceed EUR 900 million in 2023.
- Significant ownership of 26.3% in the company (investment of EUR 34.8 million currently valued at EUR 165.5 million).

Data as of 30 September 2023

Company Profile

- Swixx BioPharma is designed to replace biopharma, OTC and medical device multinationals' subsidiaries or business units in those countries, or therapeutic areas of Central and Eastern Europe (CEE) and Russia, that the multinational chooses not to enter, or to exit

Investment Rationale

- Unique business model in fast growing economic area. Experienced management team, well known from former investment in PharmaSwiss
- Solid client and revenue base with potential for massive growth
- Opportunity to actively contribute to business development through HBM network
- Unrivalled market access capabilities, in particular for higher priced prescription medicines

Achievements during Investment Period (since 2017)

- Strong revenue growth from EUR 24 million (in 2016) to EUR 700+ million in 2022 – coupled with growing profitability (from 2023-24 targeting low double-digit EBITDA margin)
- Over 1'200 employees as of H1 2023
- Geographical presence now expanding into Central Asia, Belarus and Greece
- Newest investor Merieux Equity Partners purchased 20.2% of Swixx in fall 2021

Exit

- IPO or trade sale possible

Case Study

Mineralys Therapeutics

- HBM was lead investor in February 2021 financing round, and is represented on the board
- The company pursues a targeted approach for the treatment of hypertension and related diseases such as chronic kidney disease
- MLS-101 is an aldosterone synthase inhibitor that showed significant effect size in a proof of concept phase II clinical trial
- First pivotal trials (approval relevant) started in May 2023

Company Profile

- Mineralys Therapeutics is a private, clinical-stage biopharmaceutical company developing novel therapies for the treatment of hypertension and related diseases such as chronic kidney disease

Investment Rationale

- Lack of innovation in the area of hypertension for many years
- Mode of action provides new treatment modality
- 2nd generation of molecules provide for better safety and enzyme selectivity
- Spin out from pharma company with pharma like pre-clinical data package

Achievements during Investment Period (since 2021)

- Hiring of clinical, regulatory and finance team
- Successful phase II interim analysis for dose finding and safety
- Successful phase II clinical trial confirming mode of action, dose dependency, effect size and safety
- USD 118m Series B financing round by outstanding US / EU syndicate at 90% higher valuation compared to Series A
- \$220m IPO on US NASDAQ in February 2023
- Pivotal clinical trials start in 2023

Case Study Upstream Bio

- Invested: USD 22.5 million for 7.1% ownership
- Book value: USD 36.5 million
- HBM invested in December 2020 Series A financing round, and is represented on the board
- Closed \$200 million Series B financing round in June 2023 led by Enavate Sciences and Venrock, including new investors Bain Capital & Wellington
- The company pursues a targeted approach for the treatment of asthma and related inflammatory diseases
- UPB-101 is a monoclonal antibody targeting TSLP-Rc which sits at the top of the inflammatory cascade
- First, potentially pivotal trial (approval relevant) is to start in 2024

Data as of 31 December 2023

Company Profile

- Upstream Bio is a private, clinical-stage biopharmaceutical company developing novel therapies for the treatment of asthma and related diseases

Investment Rationale

- Inflammation and immunology spans a number of overlapping indications with a high unmet medical need and a large market potential
- Limited treatment options available for patients with non-allergic asthma
- Clinically validated MoA, with a potential to differentiate from the competition on the frequency of treatment
- Spin out from a pharma company with comprehensive pre-clinical and an early clinical data package

Achievements during Investment Period (since 2020)

- Hiring of clinical, regulatory and finance team
- Successful Ph1b clinical trial in asthma patients for dose finding and safety de-risking
- Clinical data from early trials in patients suggest the possibility to dose once every 3 months. This will offer significant benefit to patients over the currently used treatment options which are administered either every 2 or every 4 weeks
- Safety and early biomarker data from that trial are in line with the competition and warrant further clinical development
- Preparation for the Ph2b trial in asthma ongoing and on track for 2024

Case Study

Arrivent Biopharma

- Invested: USD 12.0 million for 3.0% ownership
- Book value: USD 12.0 million (corresponds to post money valuation of USD 400 million)
- HBM invested in March 2023 Series B extension financing round, and is represented on the board
- The company pursues a targeted approach for the treatment of lung cancer
- Furmonertinib, an EGFR tyrosine kinase inhibitor, is already approved in China as a 1st line treatment for classic mutations EGFR mutated non-small cell lung cancer (NSCLC) patients
- Registrational trial ongoing in 1st line treatment for exon20 mutant EGFR mutated NSCLC patients

Data as of 31 December 2023

Company Profile

- Arrivent Bio is a private, clinical-stage biopharmaceutical company developing novel therapies for the treatment of lung cancer

Investment Rationale

- Exon 20 and atypical mutation EGFR mutant NSCLC patients are poorly served by available therapies which are plagued by poor tolerability, and inability to enter the brain where many metastases occur
- Having already gone through clinical development in China, furmonertinib's safety and efficacy profile are well defined
- ORR of 69% in 30 treatment-naïve patients, speaks well for the efficacy of the drug in 1L Exon20 mutations, while CNS penetration and a beneficial side effect profile set furmonertinib apart from the competition

Achievements during Investment Period (since March 2023)

- Enrolling patients in the global Phase 3 trial in exon 20 mutated EGFR mutant NSCLC patients, as well as in the Phase 1b trial in patients with atypical mutant NSCLC patients

Healthcare Market Outlook

The market is well positioned for further upside given attractive relative valuations, which could be complemented by an acceleration in M&A activity

Tailwinds

- A new cycle of major biotech innovation and transformative technologies
- Financials provide some level of downside protection
- Accommodative FDA regulatory body allowing rapid development and approval of drugs
- Later-stage M&A activity expected to continue as large pharma companies still need to fill their pipelines and have plenty of cash to spend
- Private financing activities proved resilient so far amid high level of dry powder available

Headwinds

- Macropolitical uncertainties
- Market-wide shift from growth to value
- Biotech weakness continues amid Fed's higher-for-longer narrative
- Generalist money inflow remains muted (eg. ETF flows)
- IPOs have come to a halt after record-breaking 2021; limited secondary offerings
- Concern on the sustainability of drug pricing across the globe

Expected Catalysts for end of 2023 / H1 2024

Phase I		Phase II		Phase III		Approval
<p>Evorpacept: CD47 blocker, Non-Hodgkin lymphoma, Phase Ib data from an investigator-sponsored trial</p> <p>ALX ONCOLOGY</p>	<p>HexaBody-CD38: Phase I/II data for HexaBody vs subcut. Darzalex in hematological malignancies</p> <p>Genmab</p>	<p>Lirentelimab: Phase II data in CSU and AD</p> <p>Allakos</p>	<p>Pitolisant: phase II POC study, myotonic dystrophy (DM1)</p> <p>H3 HARMONY BIOSCIENCES</p>	<p>Efgartigimod SC: ADDRESS phase III results, pemphigus vulgaris and foliaceus (PV/PF)</p> <p>argenx</p>	<p>Brensocaticib: data in non-cystic fibrosis bronchiectasis, phase III data in 2Q24</p> <p>insmed</p>	<p>Brukina: Tislelizumab 1L+2L esophageal cancer</p> <p>BeiGene</p>
<p>BI-1808: Phase I combination study with Pembrolizumab</p> <p>BioInvent</p>	<p>Zenocutuzumab (MCLA-128): NRG1+ lung & pancreatic data</p> <p>Merus</p>	<p>Evorpacept: Results from full enrolment in phase II ASPEN-06 in gastric cancer in Q2 24</p> <p>ALX ONCOLOGY</p>	<p>TPIP (Treprostinil Palmitil Inhalation Powder) in PH-ILD phase II data in H1 24</p> <p>insmed</p>	<p>Aficamten: Phase III SEQUOIA readout in oHCM</p> <p>Cytokinetics</p>	<p>VRDN-001: Phase III IV data for acute and chronic TED patients</p> <p>VIRIDIAN</p>	<p>Seladelpar: PPARδ agonist, primary biliary cholangitis (PBC), NDA submission</p> <p>CYMBAY</p>
<p>BI-1607: Phase I combination study with Trastuzumab</p> <p>BioInvent</p>	<p>MCLA-158: 1L HNSCC Interim Pembrolizumab combo phase I/II data</p> <p>Merus</p>	<p>ARX788: Phase II in HER2+ mBC post-ENHERTU</p> <p>AMBRX</p>	<p>LP352: DEEs and other refractory epilepsies (PACIFIC PoC study)</p> <p>LONGBOARD</p>	<p>Pitolisant (Wakix): TEMPO phase III study Prader-Willi Syndrome</p> <p>H3 HARMONY BIOSCIENCES</p>	<p>Zanidatamab (ZW25): 1L HER2+ GEA</p> <p>zymeworks</p>	<p>RP-L201: lentiviral gene therapy for LAD-I. Main Catalysts for HBM Public Portfolio Co's

Company	Therapeutic area	Phase	Description of catalyst
 ALX ONCOLOGY	Oncology	II	Results from full enrolment in phase II ASPEN-06 in gastric cancer
 AMBRX	Oncology	II	ARX788 in HER2+ mBC post-ENHERTU
 argenx	Immunology	III	Efgartigimod, Vyvgart in treating patients with PV in Q4 2023
 Celldex therapeutics	Immunology	II	CSU by year-end 2023
 cogent BIOSCIENCES	Immunology	II	SUMMIT trial with bezuclastinib for NonAdvSM in H2 2023
 cogent BIOSCIENCES	Immunology	II	APEX for bezuclastinib in AdvSM in 2H 2023
 Cytokinetics	Cardiovascular	III	Aficamten, SEQUOIA-HCM trial in Obstructive Hypertrophic Cardiomyopathy (oHCM)
 H3 HARMONY BIOSCIENCES	Neurology	II	POC study of pitolisant in myotonic dystrophy (DM1)
 Merus	Oncology	II	MCLA-158 (Petosemtamab) 1L HNSCC Interim Pembrolizumab combo phase I/II data
 rocket pharma	Gene therapy	Approval	RP-L201, lentiviral gene therapy for LAD-I (Leukocyte Adhesion Deficiency)
 rocket pharma	Gene therapy	Approval	RP-L102, lentiviral gene therapy for Fanconi Anemia (FA)
 vcore <i>pharma</i>	Pulmonary	II	IPF final data phase IIa in Q4

Reasons to Invest

1. Investment in the innovation and the growth of the healthcare sector
2. Unique investment approach in private and emerging listed companies
3. Active contribution to performance
4. Compelling exit markets (M&A and IPO)
5. Attractive distribution policy

- Access to a well-diversified portfolio of private and listed healthcare companies with value increasing potential
- Experienced investment team with specialized sector expertise and proven track record
- Competitive edge over other investment vehicles focusing exclusively on private or listed investments
- Global orientation with focus on the US, but increasing allocation in emerging markets such as China and India
- Closed-end structure allows optimum exploitation of the value-increasing potential of healthcare companies with daily liquidity
- Lower correlation to public market portfolios thanks to the substantial private capital allocation
- Potential to achieve long-term capital growth with an attractive distribution policy (3-5% yield target)
- Solid balance sheet with low debt and strong capital
- Quarterly reporting with high level of transparency and direct access to the HBM portfolio management team

Board of Directors

Hans Peter Hasler (2009)
Chairman

Swiss Federal Commercial Diploma. Various international management positions at Wyeth Pharmaceuticals, Biogen and Elan Corporation (1993 to 2013)

Mario G. Giuliani (2012)
Member

Economist. Executive positions and directorships at Giuliani SpA, Recordati SpA, and Nogra Group SA

Dr Elaine V. Jones (2021)
Member

Ph.D. in Microbiology. Formerly various management positions at Pfizer Ventures, EuclidSR Partners and GlaxoSmithKline

Dr Rudolf Lanz (2003)
Member

Economist and doctorate in law. Former Partner of The Corporate Finance Group and Head of Corporate Finance of Ernst & Young Switzerland (1980-2009)

Dr Stella X. Xu (2020)
Member

PhD in Immunology, BSc in Biophysics and Physiology. Managing Director of Quan Capital Management. Formerly various management positions at Roche and McKinsey & Co.

Management

Dr Andreas Wicki (2001)
CEO

Doctorate in chemistry and biochemistry.

Prior experiences as Chief Executive of several pharmaceutical companies (1988 to 2001), investment and venture capital advisor (1993 to 2001)

Erwin Troxler (2005)
CFO

Economist and Swiss Certified Accountant.

Prior experience as auditor at PwC (1996 to 2002) and account manager at Julius Baer Family Office (2002 to 2005)

Jean-Marc Lesieur (2001)
Managing Director HBM Cayman

Associate of the Chartered Institute of Bankers (ACIB trustee), a member of the Society of Trust and Estate Practitioners (STEP) and a Notary Public in the Cayman Islands. He was educated in the Cayman Islands and England.

Former director for Vontobel Private Equity Management Ltd

Dr Matthias Fehr (2002)
Head Private Equity

MSc and PhD in chemistry from ETH Zurich.

Former senior sell-side analyst at Lombard Odier for biotech and medical technology industries; former scientist at the Swiss Federal Institute of Technology

Dr Ivo Staijen (2003)
Head Public Equity

PhD in biotechnology from ETH Zurich and MSc in chemistry from the University of Groningen.

Previously senior biotechnology analyst at Bank Sarasin and department head at MDS Pharma Services

Private Equity Team

Dr Alexander Asam, MBA (2007)
Investment Advisor

MBA from ASTON Business School, Birmingham and MSc and PhD in chemistry from University of Heidelberg.

Former managing director and partner at Deutsche Venture Capital / Deutsche Bank. Various positions at Hoechst, Aventis and LION Bioscience

Dr Priyanka Belawat (2007)
Investment Advisor

PhD in molecular biology and genetics from the University of Zurich and a post-doc at HKUST.

Over 18 years of experience in venture and private equity investing in healthcare space and life sciences research

Dr Emil Bujak, CFA (2015)
Advisor to HBM Partners

PhD and MSc in Medicinal and Industrial Pharmaceutical Sciences from ETH Zurich. Chartered Financial Analyst (CFA) since 2019.

Prior experience as a registered pharmacist and in antibody technology research at Philogen

Dr Michael Buschle (2017)
Advisor to HBM Partners

PhD from University of London. Research at St. Jude's Children's Research Hospital, Boehringer Ingelheim-owned Institute of Molecular Pathology, Vienna.

Co-founder of Intercell with successful IPO, CSO of Glenmark Pharma

Dr Romain Kooger (2020)
Investment Advisor

PhD and postdoc in biophysics and microbiology at ETH Zurich. BSc and MSc in biochemistry from the university of Geneva with an emphasis on chemistry and neurosciences.

Year-long research internships at Leiden University and Nanjing University

Dr Chandra P. Leo, MBA (2007)
Investment Advisor

Doctor of Medicine from Freie Universität Berlin (Charité), MAS in Medicines Development from University of Basel, MBA with distinction from INSEAD.

Former postdoc at Stanford University, physician at University Hospital Leipzig and principal at Wellington Partners

Dr Asun Monfort (2020)
Investment Advisor

PhD in pharmaceutical development of innovative medicines from University of Navarra. Postdoc at the Stem Cell Institute in the University of Cambridge and postdoc at the Institute for Molecular Health Sciences at ETH.

Previously senior scientist at ETH

Raphael Weibel (2018)
Head Risk Management

Bachelor in Business and Economics and a Bachelor in Geography from Zurich University

Prior positions in auditing at KPMG and banking at Reichmuth & Co. Privatbank. Has previously worked in medical regulatory affairs

Public Equity Team

Steve Chen, CFA (2019)
Investment Advisor (Hong Kong)

MBA from Wharton Business School, MSc in Biochemistry and Molecular Biology from Georgetown and BSc from Nankai University.

Previously managed trading portfolio for Barclays (NY) and Huatais' HK subsidiary and was PM for a large closed-end listed fund in China

Thomas Heimann (2010)
Head Operations & Investment Solutions

MSc and BSc in Banking & Finance from the Lucerne University of Applied Sciences.

Previously in investment analysis and valuation and in client advisory at a Swiss bank

Gavin MacGregor (2017)
Investment Advisor

1st Class BSc in Biomedical Sciences, University of Manchester and a Chartered Management Accountant (CIMA).

Previously senior global healthcare analyst at Martin Currie Investment Management, European pharma analyst at Credit Suisse and Lehman Brothers

Miranda Guo (2020)
Investment Advisor (Hong Kong)

MSc in Biomedical Engineering from the Chinese University of HongKong.

Previously PE investment manager at LEPU Medical Technology and investment analyst at BGI Genomics

Michael Jasulavic (2012)
Advisor (USA)

MSc in Medical Science from MCP/Hahnemann University

Previously biotechnology analyst at Traxis Partners, Sivik Global Healthcare and Jefferies Asset Management

Miles Schofield (2007)
Trading & Execution

Bachelors of Science (Hons) degree from the Open University UK.

Previously in US Equities Middle Office activities at Salomon Smith Barney and Citigroup

Mirjam Heeb (2019)
Investment Advisor

MSc in Molecular Biology from the University of Basel and McGill University, Montreal.

Previously senior portfolio manager of GAM Health Innovation Fund, senior manager with Vifor Pharma, analyst and portfolio manager at Bellevue Group

Ny Ken (2004)
Investment Control

Bachelor in business administration from Zurich University of Applied Sciences.

Previously in administrative functions at HBM Partners AG

Dr Thomas Thaler (2006)
Investment Advisor

PhD in life sciences and MSc in biochemistry and a MBA from ETH Zurich.

Previously senior equity analyst at Bank Julius Baer and in senior management positions with Sulzer Medica, Schneider and Boston Scientific
